Dear David,

What will be your children's life work? Will they go to college? How can you help your children prepare so that they know what to do after high school?

Please join us as we explore these and many other questions at our **Apprenticeship Panel Discussion**.

In days gone by a father would pass on his skill or trade to his son. In these modern days in America determining one's life work is more challenging. This apprenticeship panel is one step in the direction to help answer the questions above. The panel members will share:

1. How being an apprentice led to learning business and entrepreneurial skills and even starting his own business.
2. A homeschooling Dad, owner of his own tradesmen business, will share his experience with training apprentices.
3. The Dept. of Labor panel member will explain CT's "other 4 year degree" apprenticeship program. This is an excellent training opportunity for trade work.

Thanks and God bless you!
